

# POISON PAWN GRAND PRIX

TAXATION & FINANCIAL SPECIALISTS

[www.dandd.co.nz](http://www.dandd.co.nz)

**Report: 8th April 2017**

## **Grand Prix funding increased for 2017 and 2018**

The New Zealand Chess Federation is delighted to announce increased sponsorship for the next two years.

The new name of the GP will be:

## **The Poison Pawn Grand Prix in Association with D & D Financial Consultants Ltd**

The total prize fund will increase to \$6500 per year, with first prize in the Open section now \$1500 (up from \$700 in 2016). This popular event rewards consistent good performance in tournaments throughout New Zealand.

You can download the rules (and the new logo, as shown above) from the web page [www.newzealandchess.co.nz/grandprix.html](http://www.newzealandchess.co.nz/grandprix.html), where you will find current standings and a link to the spreadsheet with full details of points awarded. Check out the Results and Calendar pages too!

Many thanks to Alexei Kulashko for creating the new Grand Prix spreadsheet for this year!

Full details and links: [www.newzealandchess.co.nz/NZChamp125](http://www.newzealandchess.co.nz/NZChamp125)

## **Announcements:**

### **Registering an event for FIDE rating**

Tournament organisers should be aware of FIDE's requirements for registering an event for FIDE rating.

**The following information is essential and should be provided to NZCF well in advance of the event:**

- a) The event name and location;
- b) The start and finish dates (which cannot span more than 90 days);
- c) The number of rounds;
- d) The number of days that have more than one game per day;
- e) The format - round robin or swiss;
- f) The expected number of players;
- g) The time control - standard / rapid / blitz, plus an English description of time for moves and any increments;
- h) The arbiter(s) (who must be licensed with FIDE);
- i) The organiser;
- j) The pairing software being used (in NZ this should be Vega);
- k) The tiebreak system (NZ usually uses 1. Direct Encounter. 2. Cumulative (Sum of Progressive Scores). 3. Total Buchholz. 4. Sonneborn-Berger. 5. Buchholz Cut1);
- l) Any age restrictions - junior/senior;
- m) Any sex/gender restrictions;

n) The email of someone who can be contacted if required.

If you are running an event (for example, a club championship) that spans more than one month (ie more than one FIDE rating period) then please get in touch with NZCF to discuss the procedure for submitting results for grading.

## **Collection of registration fees**

I would like to remind all tournament organisers that it is your responsibility to check the online list of registered players and collect the \$20 NZCF registration fee from all eligible unregistered players. You **will** be invoiced for these fees. Foreign players and visitors to New Zealand are exempt, as are players in events for juniors only.

## **Use of Vega pairing software**

I would like to suggest that anyone using Vega to run tournaments should make a habit of checking for Vega updates (these are frequent), FIDE rating list updates (every month) and also NZCF rating list updates – new players and new FIDE IDs will be added after most events from now on. See the Resources page at [www.newzealandchess.co.nz/resources.html](http://www.newzealandchess.co.nz/resources.html) for links.

The use of Vega for all NZ events is not compulsory but it is very much encouraged; it is the only software we have that is licensed for FIDE-rated events. Furthermore, the presentation of results (as you can see from the website) is excellent. We are planning to write an NZCF-specific manual – your input is welcome!

Note that it is essential that the NZCF .csv rating files are used for player input – this ensures that the FIDE rating report can be filed automatically without hitches (caused by, for example, player names not matching). It is easy to use the .csv on one of the database tabs. A second tab can be used to input FIDE ratings from the .txt file you can download from the FIDE site; note that Vega's defaults allow you to use this without any hassle at all (but make sure you've read the manual when updating the FIDE ratings and don't make the mistake of over-writing the NZCF data...). With regard to printing out the individual pairing slips, etc, we have noticed that Vega doesn't have an option to recognise various printers. Use your Windows (or Linux) system to make sure the printer in use is designated as the default printer, and then Vega will use it without problems. If you have any questions, please feel free to ask!
