

<b>THE N.Z.C.A. BULLETIN</b>
------------------------------

Dear Readers,

First, I wish to apologize for the errors which appeared in the last bulletin. These were mostly typing errors of names and I express regret to all who suffered at the hands of the infernal typing machine. Needless to say, we have changed to a different duplicating service and hope this issue will be an improvement. Secondly, I would like to thank those who have sent in information for the bulletin and I hope others will soon follow suit. In this issue we have incorporated a section dealing with correspondence chess. This will be a regular feature of the bulletin, and will include results from trophy tourneys as they come to hand. I think this will help many N.Z.C.A. members who are correspondence players to keep up with the state of the tourneys they are in.

1974 promises to be an excellent year for chess, both in N.Z. and in other parts of the world. As most of you know, the chess Olympiad is held this year in Nice, France, and once again N.Z. has entered a team. The composition of the team and comments on it appear later in the bulletin.

Finally, a word of caution. Before making your move and pressing the button on your clock, have another look at the position! Check all captures and checks, then if nothing sinister shows itself, make your move. I guarantee this will drastically cut the number of blunders you make.

The Editor

ROTHMAN'S NEW ZEALAND CHAMPIONSHIP

	1	2	3	4	5	6	7	8	9	0	1	2	Pts.	Gelbfuhs
1 Sarapu O.	x	1	$\frac{1}{2}$	$\frac{1}{2}$	1	1	1	1	$\frac{1}{2}$	1	1	1	$9\frac{1}{2}$	47.5
2 Garbett P.A.	0	x	$\frac{1}{2}$	1	1	1	1	1	1	1	1	1	$9\frac{1}{2}$	43.5

11 Hensman P.	0	0	0	0	0	0	0	0	0	1	x	1	2	3.5
12 Jackson J.R.	0	0	0	0	0	0	$\frac{1}{2}$	$\frac{1}{2}$	$\frac{1}{2}$	0	0	x	$1\frac{1}{2}$	

The 1973-74 Championship had the strongest field for some years, with ten of the top fourteen on the National Grading List competing; in fact several players with 700-plus gradings missed selection.

Most expected a close fight for the top places but to the chagrin of ten of the twelve players, this did not turn out to be the case. Sarapu and Garbett were the two spoil-sports; after seven rounds Sarapu had a possible and Garbett had  $6\frac{1}{2}$  - followed by Fairhurst on 5, then Daly & Day 4, Green & Stuart  $3\frac{1}{2}$ , Hall & Wansink 3. In round eight Sarapu beat Garbett in a long game and it looked as though the former's thirteenth title was no longer in dispute. But, in round nine Sarapu agreed a quick draw with Fairhurst, no doubt relying on beating Wansink with the white pieces in the following round, while Garbett beat Hall. In the penultimate round Garbett won easily, while Wansink appeared to be in difficulties at the adjournment; with careful defence, however, Wansink saved the draw, leaving Sarapu only half a point clear of Garbett. In the last round Sarapu agreed another quick draw (with Daly), leaving Garbett having to beat Day to tie - this he accomplished without much sweat, incidently gaining the National Master title in the process.

Dr. Fairhurst manoeuvred successfully through most of the tournament and tiredness no doubt played a part in his two losses. There was little between the next four; Daly and Day both started well with 4/6 but whereas the former with his hardest opponents ahead scored 50% in his last five games, the latter could manage only 2 points against somewhat weaker opposition - he seems to suffer from heebie-jeebies in the later rounds of tournaments. Green started badly with 1½/5 but by this time had met his strongest opponents. 5 points in the last 6 rounds gave him a tie for fourth. Stuart made the same start but could only manage 4½/6 after that. Losing to Avelaid by a crass blunder in a winning position ruined his chances.

Hall lacked recent tournament practice, perhaps explaining a poor result for him. Wansink in his first championship did not disgrace himself and will certainly do better in future events. Until his loss to Garbett in round 6 he was playing well but after that he rarely found his rhythm.

Avelaid was obviously out of form, got good positions in many openings, but frittered away his advantages. Hensman won in the first round but not again until the eighth; by this time he was rather demoralized and put up little resistance thereafter. Jackson picked a bad year to win the South Island Championship but was never a pushover and no doubt gained a lot of experience.

#### PREMIER RESERVE CHAMPIONSHIP

1	N. Metge	10½
2	K. Jensen	8½
3=	A. Pomeroy & D. Flude	8
5	G.G. Haase	7½
6=	C. Baker, R. Gibbons, T. Free & A. Skuja 7 pts.;	10= G. Russell,
	D. Walker, J. Arbuthnott, A.S. Hollander, M. Chandler & G. Adams	6½;
	16= L.H. Cornford, C.P. Belton, P. Clark, G.E. Trundle, M. Foord, R. Poor,	
	C. Foong & G. Cowan 6; 24= A. Ward, J. Mathieson, B. Williams, G. Mears,	
	P. Voss, M. Wilcox & C. Rolfe 5½; 31= L.E. Whitehouse, I.R. Mitchell,	
	M. Watson & B. Brett 5; 35= M. Giles, J. Mazur, D. Steffensen, J. Cater	
	& R. Black, J. Adams & Marshall 4½; 42= P.G. Robinson, W. Zyskowski,	
	R. Cockcroft & N. Knowles 4; 46= M. Morrison & S. Earle 3½;	
	48 D. Cameron 2½; 49 G. Williams 2; 50 Sneyd 0.	

Nigel Metge and Woody Mouse proved too good a combination for the others - in fact they conceded the draw in round ten when Mouse was temporarily absent. Considering the two-point victory margin, Metge's win was obviously fully deserved. Jensen also shows great promise and should make the championship grade within a few years - he finished ahead of several championship players of recent years. Flude played more solidly than usual, to finish equal third with Pomeroy, a half-point ahead of Haase. Skuja won the grade prize for the lower half, while G. Adams took the prize for the bottom quarter.

Both tournaments were extremely well directed by Dr. Ross - his very inconspicuousness attests to that.

#### NORTH SHORE CHESS CLUB NEWS

##### 1973 Swiss Tournament (38 players)

1st= P. Stuart, P. Garbett & N. Metge 7/8; 4 M. Livingston 6 pts., etc.

##### 1973 Club Ch'p.

A Grade: 1st M. Whaley 8½/10; 2 P. Stuart 7; 3 M. Livingston 6;  
4= G. Russell, D. Milne, N. Metge & R. Johnstone 5½;  
8 R. Roundill 4; 9 P. Weir 3½; 10= W. Green & D. Shead 2.

B Grade: 1st D. Johnstone 7½/10; 2= G. Waite & L. Grevers 7, etc.

C Grade: 1st= R. Fraser, Miss G. Jones & D. Higgins 10½/15, etc.

Scores in the final were 1st P. Garbett 7/7; 2= P. Stuart & M. Whaley 5½;  
4 N. Metge 4, etc.

### 1973 Speed Ch'p

In June, North Shore and the Auckland Centre played an interesting lighting match. Each of the ten Shore players met each Auckland player, making possible a 100 board match in a single evening. Organization is simple: one team sits at the same boards all through while the other team moves; the best arrangement for colours is for each team to have White on all boards in alternate rounds. Just for the record, the result was a close 51 - 49 victory to North Shore.

### UPPER HUTT CHESS CLUB NEWS

#### Open 40-40 Tournament

This 5 round Swiss in three grades was played on 10th November 1973, with 34 players. Each player has 40 minutes on his clock for the whole game. The big surprise was the defeat of current Wellington champion Feneridis by Ward in the last round. Scores:

A Grade: 1st= A. Feneridis & A. Ward 4 pts.; 3= D. Goodhall & B. Law 3½;  
5= P. Kelly & M. Wigbout 3; 7= D. Flude & M. Chandler 2½;  
9= R. Cockroft, M. Roberts, B. Gloistein & A. Hurley 2;  
13 K. Hollis 1; 14 C. Cowan 0.

B Grade: 1st W. Gnojek 5 pts.; 2 R. Shuker 4, etc.

C Grade: 1st D. Gifford-Moore 4 pts.; 2= D. Beach & S. Thompson 3½, etc.

The next 40-40 tournament will be held on the 8th June in the Civic Hall, Upper Hutt. Full details will appear in a later bulletin.

#### 1973 Club Ch'p.

The A grade was won by 17-year old Gerald Carter; full scores:  
1st G. Carter 7½/9; 2= A. Hurley, P. Clark & A. Reid 6½; 5 P. Lamb 5;  
6 D. Clark 4½; 7 N. Richardson 4; 8 L. Jones 3; 9 F. Winter 1;  
10 D. Ingram ½.

B grade (18 players) was won jointly by D. Gifford-Moore and E. Hunt and the C grade (16 players) by A. Price. The Junior grade, which meets on a different night from the adults, resulted in a tie by S. Leitch and R. Brookie.

### N.Z. CONGRESS 1975/6

Preparations are well on the way for the N.Z. Championships to be held in Upper Hutt in two years' time. The entire Civic Hall (Town Hall) has already been booked and can accommodate at least 300 players very comfortably. Negotiations are in progress in respect of accommodation for the players from outside Wellington.

### NEW ZEALAND TEAM FOR NICE

The following players have been selected by the Council to represent N.Z. at the 1974 Olympiad:

1 Dr. W.A. Fairhurst, 2 O. Sarapu, 3 P.A. Garbett, 4 E. Green,  
5 P.W. Stuart, 6 A.G. Kerr

The manager will be I.R. Mitchell and the captain Dr. Fairhurst.

This is a strong team and will do well in the forthcoming event. The board order is as above and is interesting. The decision to play Dr. Fairhurst on top board is very canny - he has vast experience to draw on (pun intended). On second board Ortvin Sarapu should bring in much needed full points. Garbett and Green on boards 3 and 4 are both capable of playing good attacking chess and of scoring well. Stuart and Kerr will provide the top four with very good back-up when two others are rested. We congratulate the team and wish them the best of success.

## 2ND A.N.Z. BANK OPEN TOURNAMENT

All 90 places in this tournament have been filled. With practically all of Auckland's top players in the field, this promises to be an even better event than last year.

### CORRESPONDENCE CHESS

The following report was supplied by A.L. Fletcher, the life and soul of the N.Z. Correspondence Chess Assoc. However, as well as Alan there are other hard workers who help settle disputes and sort out muddles made by careless players. The first report is a short history of C.C. in New Zealand:

Chess by correspondence in N.Z. on an organized basis dates from before 1930. In 1935 the late A.D. Gray of Christchurch organized the N.Z.C.C.A. and the first N.Z. Correspondence Championship was played that year. It was won by the late R.O. Scott. In succeeding years some of our country's finest players have won this event and the N.Z.C.C.A. has become increasingly important in giving younger players an insight into chess that is not nearly as rapidly granted by over-the-board play. The fact is, that properly conducted, C.C. is not the same game. C.J.S. Purdy, an ICCF grandmaster, has gone so far as to describe over-the-board play as "a game of chance" compared to correspondence play, in which many hours may be spent on deciding one move. The standard of accuracy thus attainable must be far higher than a given player could achieve at 40 moves in  $2\frac{1}{2}$  hours.

One question often pops up from non CC players: "How can you lose a game when you have all night to decide on one move?" The answer is that even under ideal conditions any player has his limit. What this limit might be is somewhere in the following factors:

- 1) The determination and care exhibited;
- 2) The time available;
- 3) The books available - and used to good purpose;
- 4) Age and physical fitness;
- 5) Level of experience and general competence;
- 6) The quality of the opponent in the above factors.

The first two points are most important, but they will be qualified by some or all of the rest. All that is sure is that success means you have done better with your assets than your opponent with his. You might even be a better player but it takes one or more tournaments to prove that, not just one game.

Analysis of possibilities is the essential ingredient, at any necessary length, followed by an evaluation of lines and eventual selection of the move. This is rather like telling an athlete that the idea of a sprint is to run as fast as he can; but CC beginners need to have this emphasized, while there is no point in telling prospective CC practitioners that it is a lazy man's occupation!

Correspondence chess is an independent branch of the game. Its popularity seems likely to continue now that it is satisfactorily organized in many countries and internationally.
